

# *WV Adult Education Technology Integration Specialists*

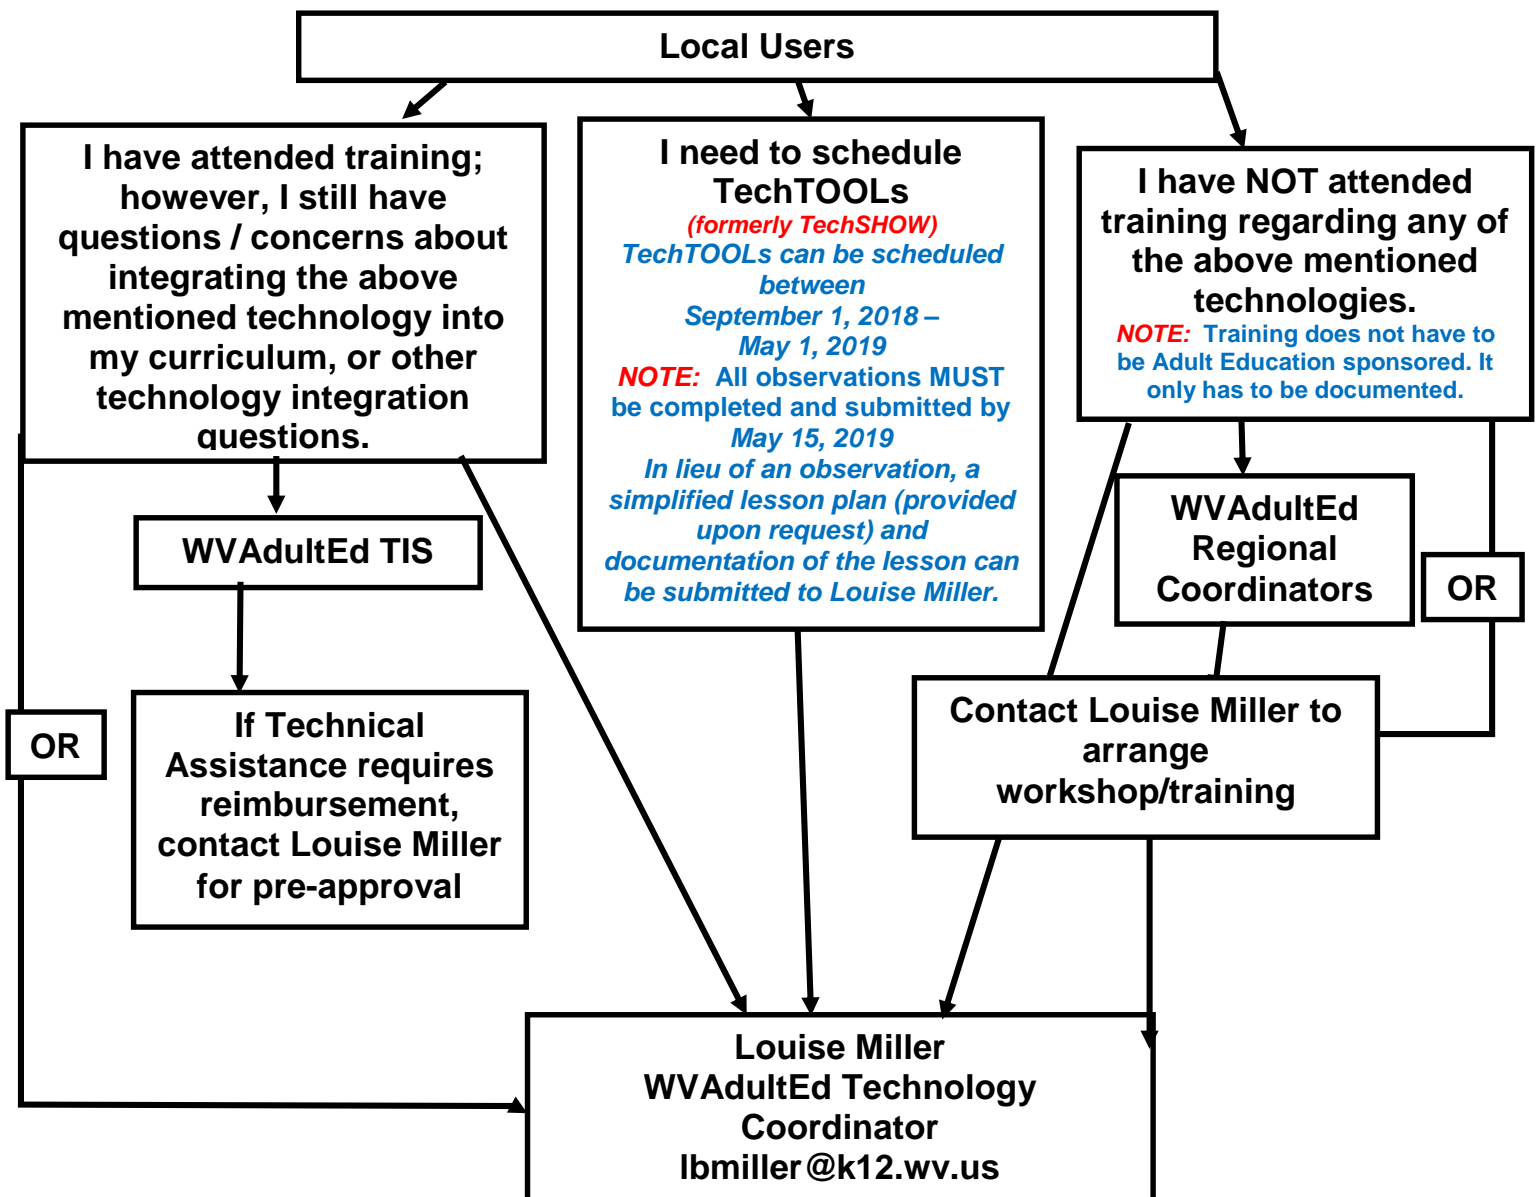

# WVAdultEd TIS Technical Assistance

I have questions about incorporating technology into the WVAdultEd curriculum/classroom!

Who do I contact?

My program has one of the following in the classroom:

- **Smartboards**
- **Document Cameras**
- **Robotics**
- **iPads/Tablets**
- **3D Printers**
- **Other**

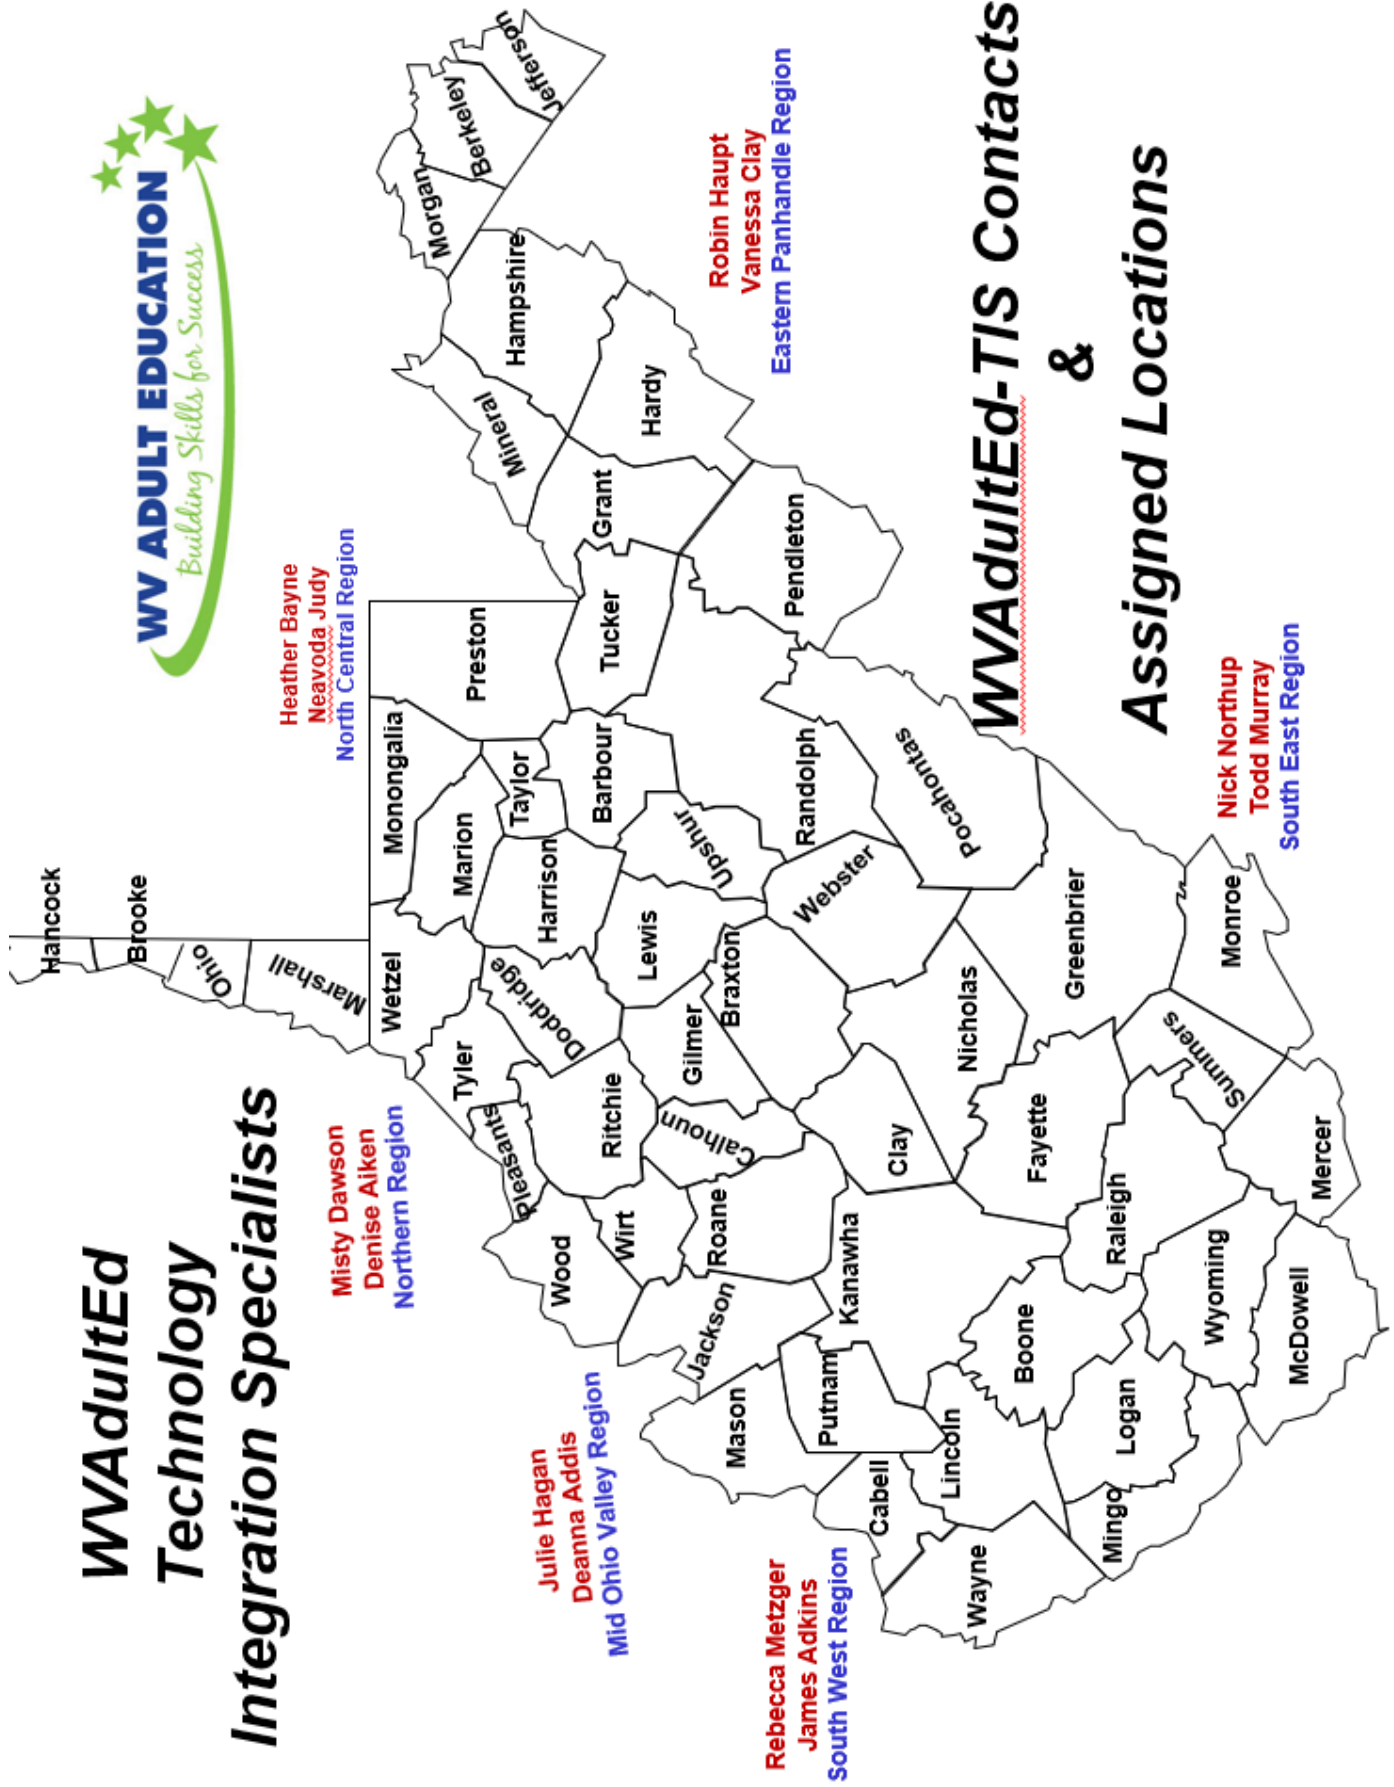

**WVAdultEd  
Technology Integration Specialists (TIS)**

<b>Contact</b>	<b>Region / Grantee</b>	<b>Phone / E-mail</b>

Deanna Addis WVAdultEd TIS		daddis@k12.wv.us

**NOTE:** WVAdultEd TIS were selected because of their interest and expertise in the area of technology. Each participant selected then entered training. The goal of the training was to provide educators with the 21<sup>st</sup> century skills and tools necessary to assume the role of a Technology Integration Specialist (TIS). Participants in this initiative received the equivalent of 320 hours of professional development over the course of a program year. Completers of the program may then apply for the TIS credential awarded by the Office of Professional Preparation.
